

OUR STRATEGY

Tiptree is a holding company that combines insurance operations with investment management expertise. Our principal operating subsidiary is a leading provider of specialty insurance products and related services. We also allocate capital across a broad spectrum of investments, which we refer to as Tiptree Capital.

Our financial goals are to generate consistent and growing earnings and to enhance shareholder value as measured by growth in book value per share plus dividends.

Key statistics

(as of 3/31/19 unless otherwise noted)

OUR BUSINESS

Specialty Insurance:

- Leader in credit insurance, with growing presence in warranty and other niche product lines
- Consistent profitability - lines underwritten are generally frequency exposed with a focus on short-tail, low volatility risks. Products we offer tend to have limited aggregation risk, and thus, limited exposure to catastrophic and residual risk
- Broad service delivery expertise - provide multiple products and services to distribution partners, leveraging their brand and customer base
- Blend of underwriting and fee-based revenues – value-add services provided to clients generate diversified and recurring fee-based earnings
- Proprietary technology - delivers low cost, automated services to clients, while allowing for scalable growth opportunities

Our approach to capital allocation across diverse sources of capital:

- Diversified strategy - allocation of capital across broad sectors, geographies, businesses and asset types, including fixed income, equity investments, and control acquisitions
- Patient capital partner - long-term perspective provides flexibility to focus on strategy and profitability through multiple market cycles
- Value oriented - focus on investment opportunities that provide sustainable cash flow and upside potential
- Experienced management - senior leadership with experience across multiple industry sectors

¹Non-GAAP – Should not be considered an alternative to GAAP. Management’s rationale for use and a reconciliation to the nearest GAAP equivalent can be found in our Form 10-Q for the period ending March 31, 2019 under “Management’s Discussion and Analysis of Financial Condition and Results of Operations”.

²Book Enterprise Value = Total Stockholders Equity plus Secured Corporate Credit Agreements and preferred trust securities, less cash (net of cash at regulated insurance subsidiaries)

OUR PERFORMANCE

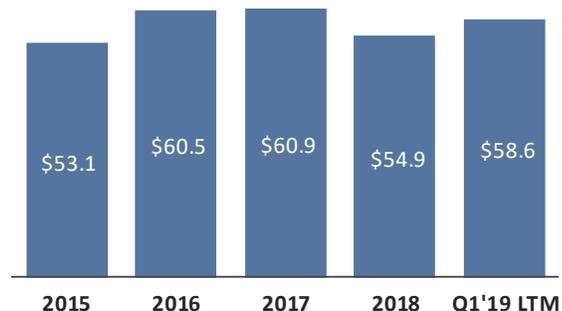

We look to enhance shareholder value by generating consistent growth and profitability as measured by Operating EBITDA and growth in book value per share plus dividends. Investors in the initial 2007 capital raise have experienced a compounded annual growth rate of 9.7%³ in book value per share plus dividends.

Book value per share¹ plus dividends paid

Operating EBITDA¹

(\$ in millions)

CLOSING THE VALUATION GAP

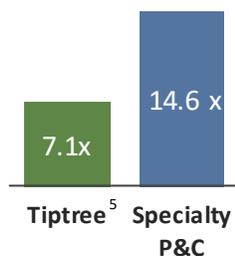

A management objective is to close the gap between our share price and book value per share. We are focused on continuing to grow earnings and Operating EBITDA, simplifying our corporate structure, and providing transparency into our strategy and financial performance. Since 2014, we have returned \$96 million to shareholders through stock buy-backs at discounts to BVPS and dividends.
