NASDAQ: TIPT

INVESTOR PRESENTATION - FIRST QUARTER 2019

May 2019

Financial information for three months ended March 31, 2019

DISCLAIMERS

LIMITATIONS ON THE USE OF INFORMATION

This presentation has been prepared by Tiptree Inc. and its consolidated subsidiaries ("Tiptree", "the Company" or "we") solely for informational purposes, and not for the purpose of updating any information or forecast with respect to Tiptree, its subsidiaries or any of its affiliates or any other purpose. Tiptree reports a non-controlling interest in certain operating subsidiaries that are not wholly owned. Unless otherwise noted, all information is of Tiptree on a consolidated basis before non-controlling interest. Neither Tiptree nor any of its affiliates makes any representation or warranty, express or implied, as to the accuracy or completeness of the information contained herein and no such party shall have any liability for such information. These materials and any related oral statements are not all-inclusive and shall not be construed as legal, tax, investment or any other advice. You should consult your own counsel, accountant or business advisors. Performance information is historical and is not indicative of, nor does it guarantee future results. There can be no assurance that similar performance may be experienced in the future.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This document contains "forward-looking statements" which involve risks, uncertainties and contingencies, many of which are beyond Tiptree's control, which may cause actual results, performance, or achievements to differ materially from anticipated results, performance, or achievements. All statements contained herein that are not clearly historical in nature are forward-looking, and the words "anticipate," "believe," "estimate," "expect," "intend," "may," "might," "plan," "project," "should," "target," "will," or similar expressions are intended to identify forward-looking statements. Such forward-looking statements include, but are not limited to, statements about Tiptree's plans, objectives, expectations and intentions. The forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties and other factors, many of which are beyond our control, are difficult to predict and could cause actual results to differ materially from those expressed or forecast in the forward-looking statements. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of various factors, including, but not limited to those described in the section entitled "Risk Factors" in Tiptree's Annual Report on Form 10-K, and as described in the Tiptree's other filings with the SEC. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as to the date of this release. The factors described therein are not necessarily all of the important factors that could cause actual results or developments to differ materially from those expressed in any of our forward-looking statements. Other unknown or unpredictable factors also could affect our forward-looking statements. Consequently, our actual performance could be materially different from the results described or anticipated by our forward-looking statements. Given these uncertainties, you should not place undue reliance on these forward-looking statement

MARKET AND INDUSTRY DATA

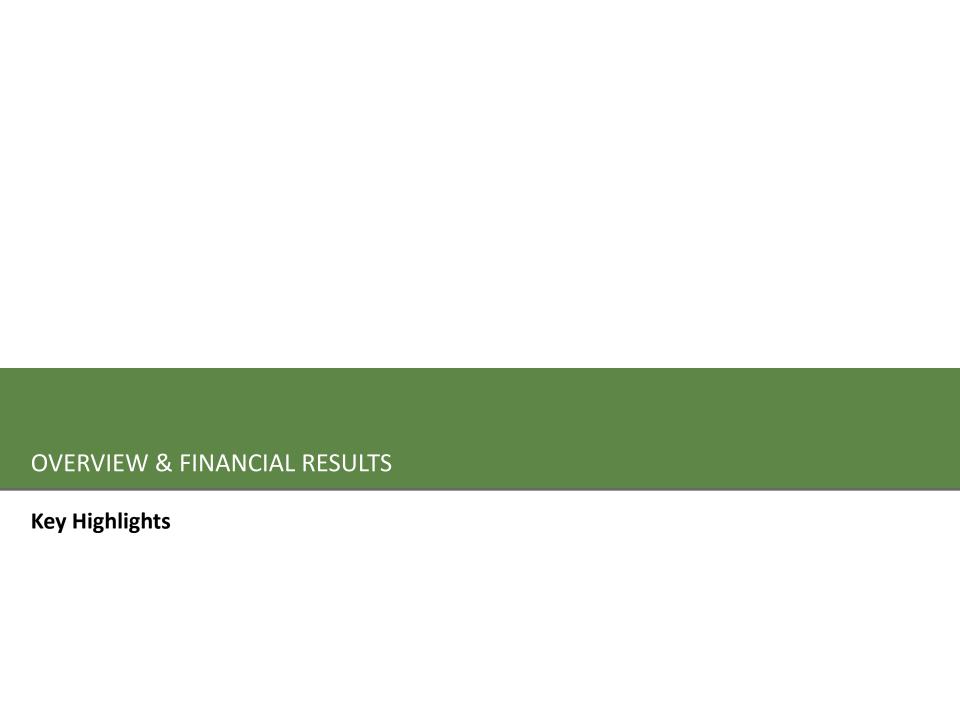

Certain market data and industry data used in this presentation were obtained from reports of governmental agencies and industry publications and surveys. We believe the data from third-party sources to be reliable based upon our management's knowledge of the industry, but have not independently verified such data and as such, make no guarantees as to its accuracy, completeness or timeliness.

NOT AN OFFER OR A SOLICIATION

This document does not constitute an offer or invitation for the sale or purchase of securities or to engage in any other transaction with Tiptree, its subsidiaries or its affiliates. The information in this document is not targeted at the residents of any particular country or jurisdiction and is not intended for distribution to, or use by, any person in any jurisdiction or country where such distribution or use would be contrary to local law or regulation.

NON-GAAP MEASURES

In this document, we sometimes use financial measures derived from consolidated financial data but not presented in our financial statements prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). Certain of these data are considered "non-GAAP financial measures" under the SEC rules. These non-GAAP financial measures supplement our GAAP disclosures and should not be considered an alternative to the GAAP measure. Management's reasons for using these non-GAAP financial measures and the reconciliations to their most directly comparable GAAP financial measures are posted in the Appendix.

OVERVIEW

Financial Results

Revenue \$183.9 million 24.2% vs. prior year

Net income¹

\$4.3 million

vs. prior year of \$29.0 million

Operating EBITDA²

\$12.6 million

vs. prior year of \$8.9 million

Book Value per share²

\$11.12

3.1% vs. 12/31/18

Key quarterly highlights

Overall

- ☑ Delivered quarterly return of 3.1%³, driven by earnings and share buy-backs
 - Repurchased 1,472,730 shares for \$9.1m at an average 40% discount to book
- ☐ Increased our quarterly dividend for the third consecutive year to \$0.04/share, a 14.3% increase

Specialty Insurance

- ☐ Gross written premiums of \$198.4m, relatively flat, with net written premiums of \$121.0m, up 10.8%, driven by growth in credit and warranty products
- ☑ Insurance Operating EBITDA of \$13.7m, up 3.0% from prior year
- Reduced exposure to corporate loans within our investment portfolio, while de-levering our balance sheet by approximately \$80m

Tiptree Capital

☑ Began re-positioning our asset management platform by agreeing to invest \$75m to seed new investment funds in exchange for management control and a profit participation in Corvid Peak

FINANCIAL RESULTS

(\$ in millions, except per share information)

Consolidated financial metrics

	Q1'18		(Q1'19	V%
Total Revenues	\$	148.1	\$	183.9	24.2 %
Net income (loss) before NCI	\$	29.0	\$	4.3	(85.2)%
Diluted EPS	\$	0.79	\$	0.11	(86.1)%
Operating EBITDA ¹	\$	8.9	\$	12.6	41.6 %
Adjusted EBITDA ¹	\$	5.4	\$	14.6	170.4 %
Total shares outstanding		38.0		34.5	(9.2)%
Book Value per share ¹	\$	10.59	\$	11.12	5.0 %

Key drivers

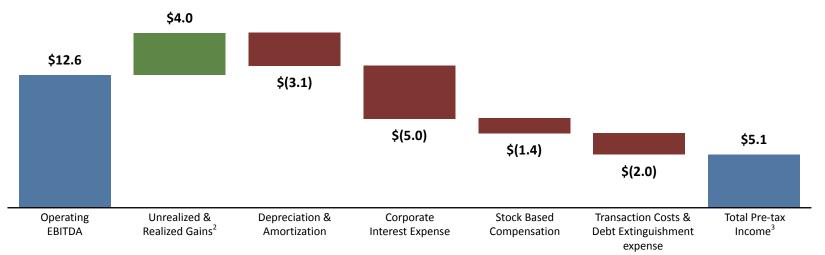

Highlights:

- Growth in insurance underwriting results
- Consistent earnings from dividends and management fees
- Unrealized and realized gains in 2019, compared to \$46.2m pre-tax gain on sale of Care in 2018

Challenges:

 Non-recurring expenses associated with our de-levering activity and the termination of an asset-based debt facility

Q1'19 Operating EBITDA to Pre-tax Income Bridge

² Excludes Care Gain, and excludes Mortgage realized and unrealized gains and losses - Performing and NPLs.

CAPITAL ALLOCATION

- Total shares outstanding					34.5

Q1'19 LTM Highlights

Operating EBITDA return on avg total capital of 8.9%

- Specialty Insurance: 14.3%
- Tiptree Capital: 9.0%

Specialty Insurance:

- Insurance Operating EBITDA of \$64.9m, up 19.3% from growth across all product lines
- Improved net investment income as the Insurance portfolio grows

Tiptree Capital:

- \$10m of dividends received from Invesque
- Profitable contributions from mortgage operations
- Positive contribution from investment of \$50m into vessels in the second half of 2018

Corporate:

• Expenses flat as infrastructure stabilized

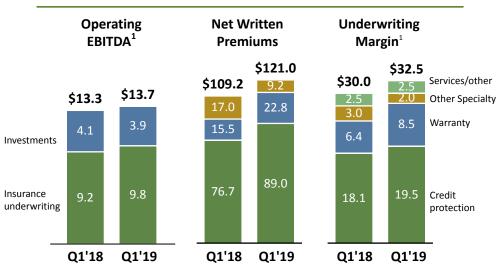

FINANCIAL PERFORMANCE HIGHLIGHTS

(\$ in millions)

Financial metrics

	Q1'18	Q1'19	V%
Gross Written Premiums	\$ 200.7	\$ 198.4	(1.1)%
Revenue	\$ 130.0	\$ 154.6	18.9 %
Pre-tax income	\$ 1.3	\$ 8.1	523.1 %
Operating EBITDA ¹	\$ 13.3	\$ 13.7	3.0 %
Net portfolio income ¹	\$ (0.4)	\$ 5.8	NM%
Combined ratio ¹	93.8%	93.5%	(0.3)%
Total Capital ¹	\$ 441.5	\$ 465.2	5.4 %
Unearned premiums & Deferred revenue	\$ 579.4	\$ 664.3	14.7 %

Insurance products

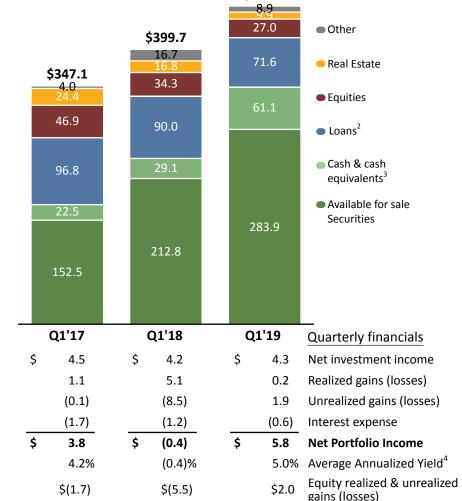

Q1'19 highlights & outlook

- 1 Continuing to expand product offerings with a focus on growth in written premiums and stable profitability
 - \$664m of unearned premiums and deferred revenue, representing 14.7% year-over-year growth
 - Net written premiums grew year-to-date by \$11.8m, or 10.8% driven by growth in credit and specialty programs
 - Consistent combined ratio of 93.5%
- 2 Produced stable underwriting results which were partially offset by continued investments in strategic growth initiatives
 - Underwriting margin of \$32.5m, up 8.7%, driven by strong performance across all products
 - Investment portfolio impacted by year-to-date:
 - Net investment income of \$4.3m
 - Realized and unrealized gains of \$2.1m

INVESTMENT PORTFOLIO

(\$ in millions)

Net Investments¹

\$462.4

Investment approach

We actively manage our investment portfolio to achieve a balance of:

- Short-term liquidity to cover current claims obligations
- Enhanced risk-adjusted returns through selective alternative investments with a focus on longer-term higher yielding assets

Financial highlights

- Net investment portfolio grew \$62.7 million, or 15.7% from Q1'18
- \$61.1m of cash and cash equivalents available to invest
- Rising interest rates have contributed increased interest income
- Positive marks on equities (including Invesque) in Q1'19 compared to losses in Q1'18

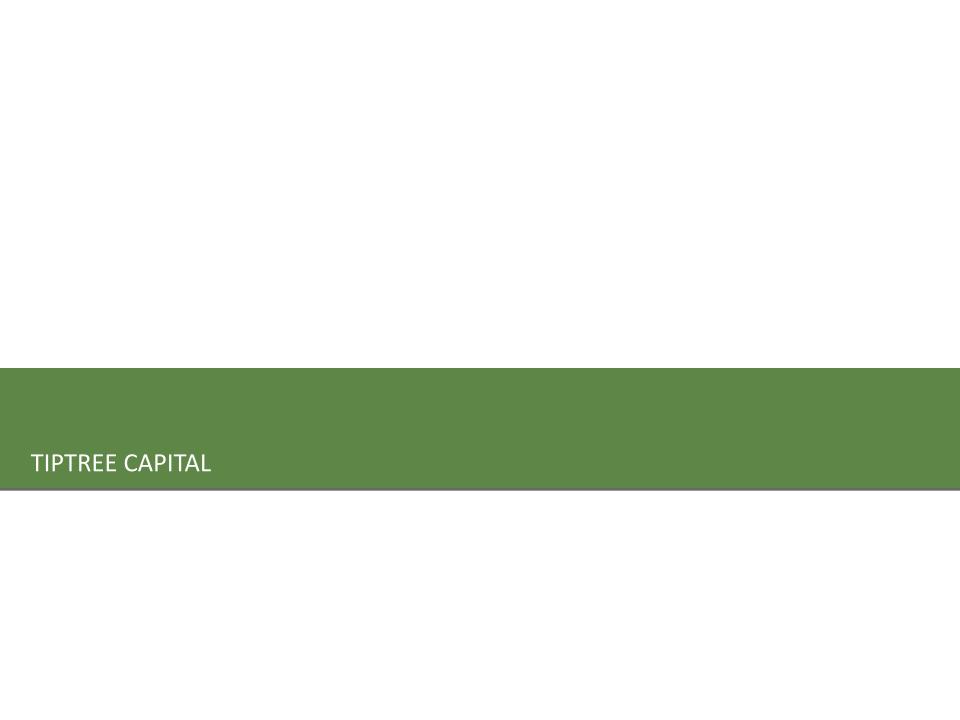

⁴ Average Annualized Yield % represents the ratio of annualized net investment income, realized and unrealized gains (losses) less investment portfolio interest expense to the average of the prior five quarters total investments less investment portfolio debt plus cash.

¹ See the appendix for a reconciliation of Non-GAAP measures Net Investments and Net Portfolio Income to GAAP financials.

² Net of non-recourse asset based financing for 2018 and 2017 periods.

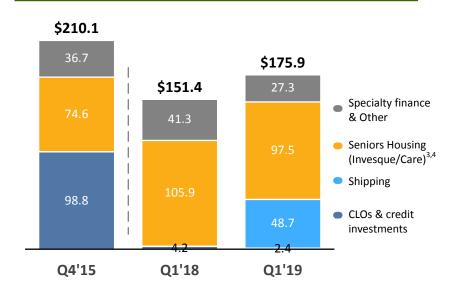

³ Cash and cash equivalents, plus restricted cash, net of due to/due from brokers. See appendix for reconciliation to GAAP financials.

FINANCIAL PERFORMANCE HIGHLIGHTS

(\$ in millions)

Invested Capital¹

Return on Invested Capital¹

	Pre-tax i	ncome	Operating	g EBITDA	
	Q1'18	1'18 Q1'19 Q1'18			
Asset management	\$0.9	\$0.5	\$0.9	\$0.6	
Real assets ^{3,4}	44.4	5.1	2.3	3.6	
Specialty finance/other	(0.1)	0.3	0.1	0.5	
Total	\$45.2	\$5.9	\$3.3	\$4.7	

Recent developments & outlook

- Repositioned our asset management operations by selling our CLO management contracts and agreeing to invest \$75m in seed capital with Corvid Peak (formerly Tricadia)
- Increased our exposure to real assets with \$50 million deployed into shipping sector

Q1'19 financial highlights

Asset Management:

 Reduced incentive fees on older CLOs have driven the decline in pre-tax income

Real Assets (Invesque):

- Q1'19 Operating EBITDA driven by Invesque dividends and cash earnings from shipping operations
- Q1'18 pre-tax income results driven by \$46.2m gain on sale of Care (discops)

Specialty finance/other:

 Mortgage operations remain profitable as volume increased with stabilized mortgage rates and margins

¹ See the appendix for a reconciliation of Operating EBITDA and Invested Capital to GAAP financials

² AUM is estimated and unaudited. Consists of NOPCB for CLOs, excludes Credit Opportunities Fund as it was not earning third party fees as of 3/31/2019

³ Includes discontinued operations related to Care. For more information, see "-FN 4 Dispositions, Assets Held for Sale and Discontinued Operations."

^{4 16.6}m of Invesque common shares, 2.9m shares held in the insurance company investment portfolio. On balance sheet at fair value less restriction discount - \$115.6 million, \$95.6 million in Tiptree Capital.

OUTLOOK

(\$ in millions)

Book value per share¹

Operating EBITDA¹

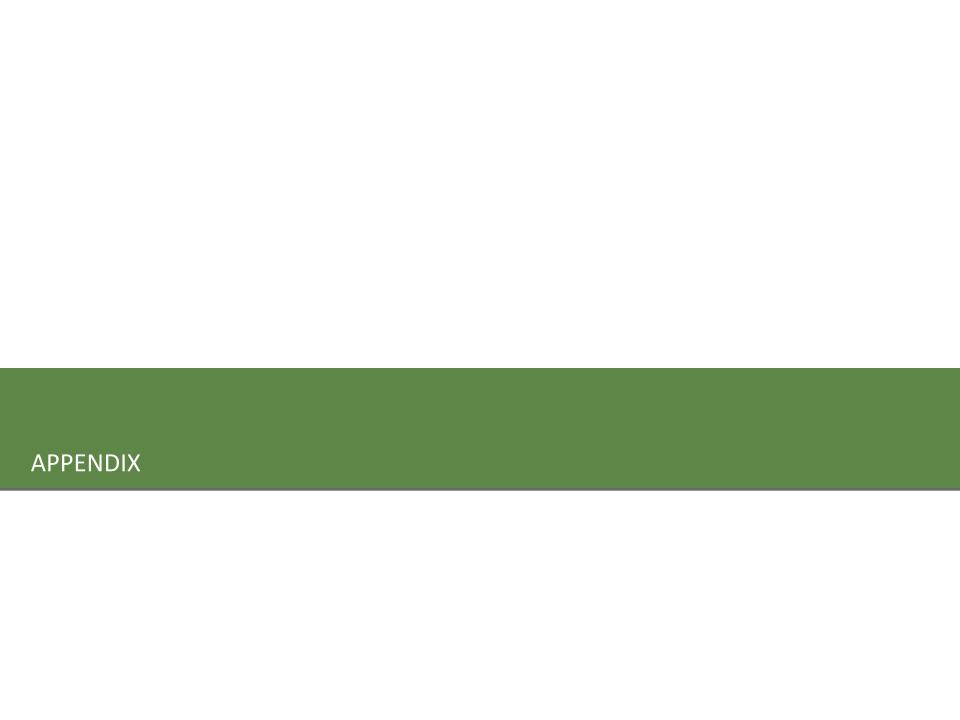

Q1'19 Highlights

- ✓ Quarterly shareholder return of 3.1%², including \$9.1 million returned to shareholders through buy-backs
- Increased quarterly dividend for third consecutive year
- ✓ Continued execution on our growth initiatives in our insurance operations and repositioning investments in Tiptree Capital to position it for growth

Looking ahead

- 1) Continue to focus on organic growth initiatives
 - Growth in written premiums while maintaining underwriting standards
- 2 Actively seek acquisition opportunities
- 3 Focus on growing and improving long-term, net investment income
- 4 Continue to broaden investor awareness of Tiptree

NON-GAAP RECONCILIATIONS

Operating EBITDA and Adjusted EBITDA

Management uses Operating EBITDA, Adjusted EBITDA and book value per share as measurements of operating performance which are non-GAAP measures. Management believes the use of Operating EBITDA and Adjusted EBITDA provides supplemental information useful to investors as it is frequently used by the financial community to analyze financial performance, and to analyze a company's ability to service its debt and to facilitate comparison among companies. Management uses Operating EBITDA as part of its capital allocation process and to assess comparative returns on invested capital amongst our businesses and investments. Adjusted EBITDA is also used in determining incentive compensation for the Company's executive officers. The Company defines EBITDA as GAAP net income of the Company adjusted to add consolidated interest expense, consolidated income taxes and consolidated depreciation and amortization expense as presented in its financial statements. Adjusted EBITDA represents EBITDA adjusted to (i) subtract interest expense on asset-specific debt incurred in the ordinary course of its subsidiaries' business operations, (ii) adjust for the effect of purchase accounting, (iii) adjust for certain non-cash fair value adjustments, and (iv) any significant non-recurring expenses. Operating EBITDA represents Adjusted EBITDA plus stock based compensation expense, less realized and unrealized gains and losses and less third party non-controlling interests. Operating EBITDA are not measurements of financial performance or liquidity under GAAP and should not be considered as an alternative or substitute for GAAP net income.

Book value per share

Management believes the use of book value per share provides supplemental information useful to investors as it is frequently used by the financial community to analyze company growth on a relative per share basis.

Invested Capital and Total Capital

Management evaluates the return on Invested Capital and Total Capital, which are non-GAAP financial measures, when making capital investment decisions. Invested Capital represents its total equity investment, including any re-investment of earnings, and acquisition costs, net of tax. Total Capital represents Invested Capital plus Corporate Debt. Management believes the use of these financial measures provide supplemental information useful to investors as they are frequently used by the financial community to analyze how the Company has allocated capital over-time and provide a basis for determining the return on capital to shareholders. Management uses both of these measures when making capital investment decisions, including reinvesting cash, and evaluating the relative performance of its businesses and investments.

Insurance - Underwriting Margin

We generally limit the underwriting risk we assume through the use of both reinsurance (e.g., quota share and excess of loss) and retrospective commission agreements with our partners (e.g., commissions paid adjust based on the actual underlying losses incurred), which manage and mitigate our risk. Period-over-period comparisons of revenues are often impacted by the PORCs and clients' choice as to whether to retain risk, specifically with respect to the relationship between service and administration expenses and ceding commissions, both components of revenue, and the offsetting policy and contract benefits and commissions paid to our partners and reinsurers. Generally, when losses are incurred, the risk which is retained by our partners and reinsurers is reflected in a reduction in commissions paid. In order to better explain to investors the net financial impact of the risk retained by the Company of the insurance contracts written and the impact on profitability, we use the Non-GAAP metric - Underwriting Margin.

Insurance - Combined Ratio

Expressed as a percentage, the combined ratio represents the relationship of policy and contract benefits, commission expense (net of ceding commissions), employee compensation and benefits, and other expenses to net earned premiums, service and administrative fees, and other income. Investors use this ratio to evaluate our ability to profitably underwrite the risks we assume over time and manage our operating costs. As such, we believe that presenting underwriting margin and the combined ratio provides useful information to investors and aligns more closely to how management measures the underwriting performance of the business.

Insurance Investment Portfolio - Net Investments and Net Portfolio Income

In managing our investment portfolio we analyze net investments and net portfolio income, which are non-GAAP measures. Our presentation of net investments equals total investments plus cash and cash equivalents minus asset based financing of investments. Our presentation of net portfolio income equals net investment income plus realized and unrealized gains and losses and minus interest expense associated with asset based financing of investments. Net investments and net portfolio income are used to calculate average annualized yield, which management uses to analyze the profitability of our investment portfolio. Management believes this information is useful since it allows investors to evaluate the performance of our investment portfolio based on the capital at risk and on a non-consolidated basis. Our calculation of net investments and net portfolio income may differ from similarly titled non-GAAP financial measures used by other companies. Net investments and net portfolio income are not measures of financial performance or liquidity under GAAP and should not be considered a substitute for total investments or net investment income.

Il Operating EBITDA		

- (1) Corporate Debt interest expense includes Secured corporate credit agreements, junior subordinated notes and preferred trust securities. Interest expense associated with asset-specific debt in specialty insurance and asset management, mortgage and other operations is not added-back for Adjusted EBITDA and Operating EBITDA.
- (2) Represents total depreciation and amortization expense less purchase accounting amortization related adjustments at the Insurance Company. Following the purchase accounting adjustments, current period expenses associated with deferred costs were more favorably stated and current period income associated with deferred revenues were less favorably stated. Thus, the purchase accounting effect related to our Insurance company increased EBITDA above what the historical basis of accounting would have generated.
- For our specialty insurance operations, depreciation and amortization on senior living real estate that is within net investment income is added back to Adjusted EBITDA. For Care (Discontinued Operations), the reduction in EBITDA is related to accumulated depreciation and amortization, and certain operating expenses, which were previously included in Adjusted EBITDA in prior periods.
- (4) Acquisition, start-up and disposition costs including debt extinguishment, legal, taxes, banker fees and other costs. In 2018, includes payments pursuant to a separation agreement, dated November 10, 2015.
- (5) Adjustment excludes Mortgage realized and unrealized gains and losses Performing and NPLs as those are recurring in nature and align with those business models.
- (6) Removes the Operating EBITDA associated with third party non-controlling interests. Does not remove the non-controlling interests related to employee based shares.

⁽¹⁾ Includes discontinued operations related to Care. For more information, see "Note—(3) Dispositions, Assets Held for Sale & Discontinued Operations."

⁽⁷⁾ Removes the Operating EBITDA associated with third party non-controlling interests. Does not remove the non-controlling interests related to employee based shares.

⁽²⁾ Corporate Debt interest expense includes Secured corporate credit agreements, junior subordinated notes and preferred trust securities. Interest expense associated with asset-specific debt in specialty insurance and asset management, mortgage and other operations is not added-back for Adjusted EBITDA and Operating EBITDA.

⁽³⁾ Represents total depreciation and amortization expense less purchase accounting amortization related adjustments at the Insurance Company. Following the purchase accounting adjustments, current period expenses associated with deferred costs were more favorably stated and current period income associated with deferred revenues were less favorably stated. Thus, the purchase accounting effect related to our Insurance company increased EBITDA above what the historical basis of accounting would have generated.

⁽⁴⁾ For our specialty insurance operations, depreciation and amortization on senior living real estate that is within net investment income is added back to Adjusted EBITDA. For Care (Discontinued Operations), the reduction in EBITDA is related to accumulated depreciation and amortization, and certain operating expenses, which were previously included in Adjusted EBITDA in prior periods.

⁽⁵⁾ Acquisition, start-up and disposition costs including debt extinguishment, legal, taxes, banker fees and other costs. In 2018, includes payments pursuant to a separation agreement, dated November 10, 2015.

⁶⁾ Adjustment excludes Mortgage realized and unrealized gains and losses - Performing and NPLs as those are recurring in nature and align with those business models.

NON-GAAP RECONCILIATIONS - BVPS, INVESTED AND TOTAL CAPITAL

Management uses Book value per share, which is a non-GAAP financial measure. Prior to April 10, 2018, book value per share assumes full exchange of the limited partners units of TFP for Common Stock. Management believes the use of this financial measure provides supplemental information useful to investors as it is frequently used by the financial community to analyze company growth on a relative per share basis. Tiptree's book value per share was \$11.12 as of March 31, 2019 compared with book value per share, as exchanged, of \$10.59 as of March 31, 2018. Total stockholders' equity, net of other non-controlling interests for the Company was \$383.6 million as of March 31, 2019, which comprised total stockholders' equity of \$394.7 million adjusted for \$19.2 million attributable to non-controlling interest at certain operating subsidiaries that are not wholly owned by the Company, such as Luxury and management interests in subsidiaries. Total stockholders' equity, net of other non-controlling interests for the Company was \$402.3 million as of March 31, 2018, which comprised total stockholders' equity of \$407.7 million adjusted for \$5.4 million attributable to non-controlling interest at subsidiaries that are not wholly owned by the Company.

(\$ in millions, except per share information)	As of March 31,			1,
		2019		2018
Total stockholders' equity	\$	394.6	\$	407.7
Less non-controlling interest - other		11.0		5.4
Total stockholders' equity, net of non-controlling interests - other	\$	383.6	\$	402.3
Total Common shares outstanding		34.5		29.9
Total Class B shares outstanding				8.0
Total shares outstanding		34.5		37.9
Book value per share ⁽¹⁾	\$	11.12	\$	10.59

(1) For periods prior to April 10, 2018, book value per share assumes full exchange of the limited partners units of TFP for Common Stock.

Management evaluates the return on Invested Capital and Total Capital, which are non-GAAP financial measures, when making capital investment decisions. Invested capital represents its total cash investment, including any re-investment of earnings, and acquisition costs, net of tax. Total Capital represents Invested Capital plus Corporate Debt. Management believes the use of these financial measures provide supplemental information useful to investors as they are frequently used by the financial community to analyze how the Company has allocated capital over-time and provide a basis for determining the return on capital to shareholders. Management uses both of these measures when making capital investment decisions, including reinvesting distributable cash flow, and evaluating the relative performance of its businesses and investments.

(\$ in millions)	 As of M	arch 31,	
	2019	20	18
Total stockholders' equity	\$ 394.6	\$	407.7
Less non-controlling interest - other	 11.0		5.4
Total stockholders' equity, net of non-controlling interests - other	\$ 383.6	\$	402.3
Plus Specialty Insurance accumulated depreciation and amortization, net of $tax^{(1)}$	44.8		37.6
Plus acquisition costs	 4.2		4.2
Invested Capital	\$ 432.6	\$	444.1
Plus corporate debt ⁽²⁾	 238.7		188.0
Total Capital	\$ 671.3	\$	632.1

⁽¹⁾ As of March 31, 2019, add-back of \$66.5 million of accumulated intangible amortization at Fortegra. On as exchanged basis, assumes 35% tax rate on total accumulated amortization before 2018 and 21% post 2018.

⁽²⁾ Corporate debt consists of Secured Corporate Credit Agreements, plus preferred trust securities.

NON-GAAP RECONCILIATIONS - SPECIALTY INSURANCE

The following table provides a reconciliation between underwriting margin and pre-tax income. We generally limit the underwriting risk we assume through the use of both reinsurance (e.g., quota share and excess of loss) and retrospective commission agreements with our partners (e.g., commissions paid adjust based on the actual underlying losses incurred), which manage and mitigate our risk. Period-over-period comparisons of revenues are often impacted by the PORCs and clients' choice as to whether to retain risk, specifically with respect to the relationship between service and administration expenses and ceding commissions, both components of revenue, and the offsetting policy and contract benefits and commissions paid to our partners and reinsurers. Generally, when losses are incurred, the risk which is retained by our partners and reinsurers is reflected in a reduction in commissions paid. In order to better explain to investors the net financial impact of the risk retained by the Company of the insurance contracts written and the impact on profitability, we use the Non-GAAP metric - Underwriting Margin.

Expressed as a percentage, the combined ratio represents the relationship of policy and contract benefits, commission expense (net of ceding commissions), employee compensation and benefits, and other expenses to net earned premiums, service and administrative fees, and other income. Investors use this ratio to evaluate our ability to profitably underwrite the risks we assume over time and manage our operating costs. As such, we believe that presenting underwriting margin and the combined ratio provides useful information to investors and aligns more closely to how management measures the underwriting performance of the business.

(\$ in millions)			nths Ended ch 31,	
Revenues:		2019		2018
Net earned premiums	\$	119.0	\$	101.6
Service and administrative fees		25.9		24.6
Ceding commissions		2.5		2.3
Other income		0.8		0.7
Underwriting Revenues - Non-GAAP	\$	148.2	\$	129.2
Less underwriting expenses:				
Policy and contract benefits		40.8		36.6
Commission expense		74.9		62.6
Underwriting Margin - Non-GAAP	\$	32.5	\$	30.0
Less operating expenses:				
Employee compensation and benefits		12.0		10.9
Other expenses (excluding debt extinguishment expenses)		11.1		10.8
Combined Ratio		93.5%		93.8%
Plus investment revenues:				
Net investment income		4.3		4.2
Net realized and unrealized gains		2.1		(3.4)
Less other expenses:				
Interest expense		4.1		4.5
Debt extinguishment expenses		1.2		0.4
Depreciation and amortization expenses		2.3		2.7
Pre-tax income (loss)	\$	8.1	\$	1.3

NON-GAAP RECONCILIATIONS - SPECIALTY INSURANCE

The investment portfolio consists of assets contributed by Tiptree, cash generated from operations, and from insurance premiums written. The investment portfolio of our regulated insurance companies, captive reinsurance company and warranty business are subject to different regulatory considerations, including with respect to types of assets, concentration limits, affiliate transactions and the use of leverage. Our investment strategy is designed to achieve attractive risk-adjusted returns across select asset classes, sectors and geographies while maintaining adequate liquidity to meet our claims payment obligations.

In managing our investment portfolio we analyze net investments and net portfolio income, which are non-GAAP measures. Our presentation of net investments equals total investments plus cash and cash equivalents minus asset based financing of investments. Our presentation of net portfolio income equals net investment income plus realized and unrealized gains and losses and minus interest expense associated with asset based financing of investments. Net investments and net portfolio income are used to calculate average annualized yield, which management uses to analyze the profitability of our investment portfolio. Management believes this information is useful since it allows investors to evaluate the performance of our investment portfolio based on the capital at risk and on a non-consolidated basis. Our calculation of net investments and net portfolio income may differ from similarly titled non-GAAP financial measures used by other companies. Net investments and net portfolio income are not measures of financial performance or liquidity under GAAP and should not be considered a substitute for total investments or net investment income.

(\$ in thousands)		As of March 31,					
	2019	2018	2017				
Total Investments	\$ 401.3	\$ 467.2	\$ 472.8
